

Laboratory Lift Turn Burning Gas Outlets

Kinetic offer a range of burning gas needle outlets that are suitable for any laboratory environment.

The outlets are available as single or twin and can be mounted on laboratory benches, laboratory worktops, walls, panels, overhead units and reagent shelves.

Available with colour coded handles and marked as per the EN13792 standard.

The outlet is white powder coated as standard but alternative colours are available.

Available as

Natural Gas (G)

Liquefied Petrol Gas (LPG)

Butane (C₄H₁₀)

Propane (C₃H₈)

Acetylene (C₂H₂)
